DELEGATES TO SARATOGA. CORNELIUS VANDERBILT GOING FROM THIS COUNTY.

Gruber Offers to Name Austin, According to Promise, but Austin Declines-Austin Ticket Heaten 128 to 10-No Attempt Made in the Twenty-ninth to Beat Mason. The Republican Assembly district conventions for the election of delegates to the State rention were held in this county last night. Abe Gruber, the leader of the district, offered

his ticket to George C. has contested leadership unsuccessfully. Mr. Austin refused to act as a delegate because he had other business to attend to, he said. Col Gruber and his friends declined to put any other Austin man than Mr. Austin himself on their ticket on the ground that they offering the place to the man and not The Austin people put in a in ticket and it was defeated by

in the Twenty-ninth district, where the ope leader, Alexander T. Mason, thought that they might be able to control the convention, it turned out that they had not enough delegates to cause him any trouble. Cornelius Vanderbilt was elected a delegate

in the Twents-fourth. The delegates expect to go to Saratoga on Monday Gen Francis Vinton Greene, President of the County Committee, and the other officers will go to-day. The committee has net arranged for any special trains, but all the delegates will get the benefit of reduced fare both ways Here is the list of the delegates

First Voters' Mckinley and Roosevelt Club. bly district organized a First Voters' McKinley of district organized a First Voters' McKinley and Roosevelt Club-last evening, with head-quarters at The Farm, 125th street and Seventh arease. The culp will raise a big tent and hold mass meet its throughout the campaign. These are its officers. President, Leonard Croft, Ylee Presidents, Arthur B. Murtha, Bertam Febbar and B. Frank; Secretaries, Julian Rosenthal and David B. Costuma.

delegates to the State convention,

BRYAN AT SOUTH BEND. He Begins His Speaking Tour in Indians

-Harping on Imperialism. SOUTH BEND, Ind., Sept. 1.-W. J. Bryan reached this city at 4 o'clock this afternoon. He was well received and both here and at La Porte, where he spoke this afternoon, the audiences were large.

The meeting to-night was held upon the Court House grounds. A thunderstorm which struck the city about 7 o'clock threatened to drive the people inside, but Mr. Bryan expressed preference for an outside meeting. Although more rain was threatened his wishes were acceded to. B. F. Shively presided, but he contented himself with a mere presentation of Mr.

The speech was a general discussion of the issues of the campaign but especial attention was given to imperialism. This, he insisted, was the paramount issue and he likewise insisted that the Republicans were doing all they could to evade this issue, He also discussed the question of trusts, the increase of the army, and other points at issue, centending that the Republicans had been on both sides of these questions. He declared that if the Republicans should win at the next election there would never again be a standing army of less than 100,000 men.

In further discussion of this question. Mr. Bryan said:

"If we are to go upon the theory that we shall either conquer trade or force our religion upon other nations we have got to have a big army with which to do this. The truth is that the Republicans who have inveighed so much against a double standard in money are trying to create a double standard in government; they are contending for Democracy here, and for a mild despotism in the isles of the sea'

Col. Bryan argued that the United States were without any legitimate title in the Philippines. He elaborated his former discourse upon the question of whether a Filipino was a citizen

the question of whether a Filipino was a citizen or a subject and repeated that the Republican party had never formulated any policy for the government of these people.

On the question of the relative importance of the issues of the campaign, Mr. Bryan said:

"In every campaign there is also some question more important than the others, and in this campaign, while several questions will be talked about, there is one question that to my mind is of more importance than any other. When it comes to a discussion of the paramount issue we find the Republicans do not agree with us. I find, for instance, that the Republican leaders have been insisting that the money question is the paramount issue, and that no matter what a man's opinion may be on the subject of i aperialism, he ought to decide this campaign by his opinion on the money question. I have an opinion on the money question and the Democratic party has a position on the money question is right, and I believe the Democratic position is right.

"I have rever had one moment's doubt about

right, and I believe the Democratic position is right.

Thave rever had one moment's doubt about the correctness of the position taken by the gansas City platform on the money question. But, my friends, I want to remind you that for four years the Republican party has been declaring the silver question to be dead, and now it finds it very much alive. I insisted all the time, when they were talking about its being dead, that it was a very lively corpse. Now I find the Republican party declaring the silver question the paramount issue of the campaign, and some of them are saying that a Democratic President could ruin the country, no matter if he did not have a Congress or a Senate to agree with him.

"The Republicans have been in power four years and have had unlimited control of legis-lation and I cannot believe that they have left the law so that a Democratic President could the law so that a Democratic President could ruin the country in a single month, but, my friends, I want to ask you, which is the more important—the financial system which you have or the form of Government under which you live? When a man says it is more important that you should have a gold standard than that you should have a Government resting upon the consent of the governed I say that he is confessing the charge we have made against the R-publicans that he is putting the dollar above human rights."

BRYAN HAS HIS EYE ON US. He Says He Expects to Carry Several of the

Eastern States. CHICAGO, Sept. 1 .- William J. Bryan reached Chicago to-day, the first stopping place on a campaign tour that is expected, with brief periods of rest, to last until the election in November, and to carry him into more than half the States in the Union. Bryan now denies that he ever contemplated staying at home and making the people come to him. While he insists that he will not tour the country with a repetition of the exhausting journey that made him travel over 15,000

the country with a repetition of the exhausting journey that made him travel over 15,000 miles four years ago, he has practically decided to respond to the demands for his presence which are pouring into Democratic National Headquarters and he has also agreed to assist the National Committee in its new decision to make a fight for some of the Eastern States by visiting that part of the country and making several speeches there.

Col. Bryan expressed much satisfaction over the accession of Bishop Henry M. Turner of Atlanta, Ga., one of the leaders of the colored race. He said:

"The Democratic party is the best party for the colored people and many of the more intelligent leaders of that race are already beginning to see that such is the fact. Bishop Turner is certainly a most valuable addition to our forces and I am proud to welcome him to the Democratic party."

Speaking of his intended invasion of the East during the coming week, he continued:

"I think we shall certainly carry several of the Eastern States, but just which ones we have our eye on I don't think it would be a reflection upon the sagacity of the voter in the States I might mention. The only Eastern States which I shall visit during the coming week are Maryland and West Virginia."

Mr. Bryan refused to discuss the recent interview with Secretary Gage in which the latter pointed out the danger to the financial interest of the country which would attend Mr. Bryan's election to the Presidency. He said that in his own time and at his own convenience he would reply to the Secretary of the Treasury, but that the time for reply had not yet been reached.

"What Eastern States do you expect to carry?" he was asked. "What Eastern States do you expect to carry?"

was asked.

am making no predictions," answered
nominee, smiling. He also declined to
anything about the State campaigns, the
es of the fight the Republicans are making

TO STUMP FOR BARKER. Former Populist Congressman Howard to In-

vade Bryan's Own State. BIRMINGHAM, Ala., Sept. 1 - W. M. Howard

of Alabama, former Congressman, left here to-night for Nebraska, where he will take the stump for the Barker-Donnelly Populist ticket. He will make speeches for four weeks in Bryan's State, including Lincoln. He will then go to Kentucky for three weeks, and thence into Ohio. He said to-night: "Bryan hasn't a ghost of a show to be elected

"Bryan hasn't a ghost of a show to be elected President and he will lose 1,000,000 votes this year. I figure on the Populist indorsement he received. I intend speaking for Barker and Donnelly through the campaign."

Howard, while not saying so directly, intimated that McKinley and Roosevelt could not be defeated. He says the statement about Barker's ineligibility to the office is folly, and that the straight middle-of-the-road Populist ticket will poll a heavier vote than expected. Heward recently stumped Texas in behalf of Barker and Donnelly, and reports division among the Democrats there.

JONES'S "IGNORANT FOREIGNERS." to Be Used by Republicans.

CHICAGO, Sept. 1.—Republican managers are preparing to use as a campaign document a speech made by Senator Jones, Democratic chairman, at Little Rock, Ark., in which he declared that "hundreds of thousands of ignorant foreigners who came over here to take

ant foreigners who came over here to take
the bread out of the mouths of honest labor
voted at the last election at the dictation of
McKinley's supporters."
The Republicans say the Democrats are
making strenuous efforts to capture the socalled foreign vote this year and that Senator
Jones's contemptuous remark about "ignorant
foreigners" is not calculated to do him or his
party much good in the campaign. Posters
have been printed quoting Jones's speech, and
they will be distributed widely during the
campaign.

Train Robbers Surrounded in the Bad Lands. CHEYENNE, Wyo., Sept. 1 .- A report has reached the railroad company that the posse is reached the railroad company that the posse in pursuit of the four bandits that dynamited and robbed the Union Pacific express train at Table Rock on Wednesday night has them surrounded in a wiid spot in the Bad Lands in Southern Wyoming, known as the "Haystacks" and that they cannot escape. The robbers are known to be well armed and if they were thoughtful enough to supply themselves with food it may be many days before they can be starved out of their hiding place.

MURPHY PISHES AT COLER. ANONYMOUS M'GUIRE ARISES F. AERED ON HILL.

Croker Contributes "Colerizing" to the Rich

Murphy to Confer With Hugh McLaughlin Ex-Senator Murphy, who has received the itle of State leader from Richard Croker, spent

vesterday at the headquarters he has established in the Hoffman House, Mr. Murphy was in consultation during the morning with Mr. Croker, National Committeeman Norman E. Mack of Buffalo, ex-Gov. William J. Stone of Missouri and National Committeeman Campau of Michigan. In the afternoon when he was asked whether he thought that the friends of Comptroller Coler would be able to make much of a fight in his behalf at the Democratic State Convention in Saratoga on Sept. 11, he "I do not believe there will be any fight in

the convention," said Mr Murphy. "I do not think Mr. Coler will have over seventy-five delegates. In fact, I shall be surprised if he has seventy-five. There will not be enough Coler strength in the convention to make a decent showing for him, and I believe that it will be futile for his friends to make a fight. and that they will recognize this.

"The political situation presented in the Democratic party in this State at this time is a very peculiar one, and I do not think that in all the history of the party you can find its like. I have not heard a single person speak about the offices on the State ticket except the Governorship. These offices are of extreme importance, but there has been so much talk about Coler in one form or another that people have not had much opportunity to think about the other nominees who must be named by the convention. Neither any person spoken to me about the platform which must be adopted by the convention. That body will assemble in ten days, and usually a great deal of thought has been given to the preparation of what will be for two years the organic law of the party in this State But there has been so much talk about the candidacy of Mr. Coler and such a hullabaloo has been raised about him that no one has had time to give thought to these other subjects. Never in my experience have I seen a political situation like the present one in the Democratic party."

Mr. Murphy was asked whether he had any candidate for Governor. He said that he had When he was asked what he thought of John B. Stanchfield he said that Mr. Stanchfield was a very able young gentleman and that he was very popular among the young men of both parties throughout the State. Mr. Croker recently said that Mr. Murphy would make a good Governor, Mr. Murphy said with great positiveness yesterday that he was not and would not be a candidate and added that he believed that some young man should get the nomination. He had not dis-cussed the situation in New York State with the members of the National Committee. Their conversation had been restricted to the national situation. He had made no suggestion as to where the National Committee should estabish its headquarters in this city, but thought it should be near the headquarters of the State

Mr. Murphy and Mr Croker had a good nany laughs over the result of the primaries in Buffalo, at which Mr Mack declares that he knocked ex-Lieut Gov. William F. Sheehan all to pieces Mr. Mack said that Mr. Sheehan had gone to Buffalo saying that he intended to prevent the city from being "Crokerized Mr Croker laughed when he heard this, and said: "It looks as though he went up there to "What does 'to Colerize' mean, Mr. Croker?

asked one of the gentlemen in the room "To knock out the party leaders," said Mr Croker, and he laughed again.

Mr. Murphy expects to see the Hon. Hugh McLaughlin in a very few days. He said yesterday that he had not made any appointment to see Mr. McLaughlin, but that they would certainly meet and have a talk. It is expected that Mr. Croker will be present at this interview. All the Democratic statesmen of the Croker-Murphy-Shevlin combine and those of the Hill faction agree that Kings county will hold tht balance of power at the State convention, if it going business woman. She says: balance of power at the State convention, if it acts as a unit: and that whatever candidate it selects to support will receive the nomination.

Last evening there appeared a typewritten statement regarding the candidacy of Mayor McGuire of Syracuse for the Governorship. Nobody seemed to know where the statement came from. The statement said that the Syracuse Mayor's friends were pushing his candidacy for Governor, but that they were not hostile to Mr. Croker. It also said that some of his advisers believed that Coler's nomination could not be brought about, and that all the factions of the party could unite on Mayor McGuire. The statement recalled the fact that Mayor McGuire had carried the city of Syracuse three times, and also that the eighteen delegates of Onondaga. Cortland and Madison counties had been practically instructed for him. The gentlemen at Mr. Murphy's headquarters declared that this statement did not come from them. and that it must have come from the Hill headquarters. They interpreted it as a sign that Mr. Hill was weakening, and they said that they believed he would not bring forward Mr. Coler's name in the convention. Mr. Murphy said several days ago that he had private information that Mr. Hill's real candidate was Mr. McGuire and not Mr. Coler. The Croker-Murphy-Shevlin combine believes that it has got Mr. Hill beaten to a standstill, and that he will not dare to risk a count of noses on the floor of the convention.

Ex-Gov. Stone, Representative Richardson of Tennessee, Committeeman Campan and Committeem Mack had several talks yesterday in regard to the work they are going to do in the headquarters which the National Committee will establish here next week. They did not rach any decision. Last night Mr. Campan went West. It is not known whether he went to Michigan or to Chicago, but it is suggested that he has probably gone to Chicago to consult with Chairman Jones. Mr. Richardson went down to Washington. Ex-Gov Stone and Mr. Mack will spend to-day and to-morrow at Manhattan Beach. All o

ROCKLAND COUNTY REPUBLICAN

Convention Adopts Resolutions Recommend ing the Nomination of Odell.

County convention for Rockland county, to elect delegates to the State convention at Saraoga next week, was held at the Courthouse in New City this afternoon. Former Senator Clarence Lexow was chosen chairman of the convention and made a speech upon the ance of the coming election. Resolutions were adopted praising the Administration of Presiheartily indorsing the administration of Gov. Roosevelt, and closing with the following in regard to the Hon. B. B. Odell, Jr.:

regard to the Hon. B. B. Odell, Jr.:

Resolved, That the long services of the Hon B. B.
Odell. Jr. as member of the State Committee from
this district, his eminent service as chairman of the
Executive Committee, later as chairman of the State
Committee, and his faithful and satisfactory labors
as our Republican Representative in Congress from
this district, make it a pleasure for the Republicans
of Rockland county to recommend his unanimous
nomination to the high office of Governor of the Empire State.

The following delegator ways assisted.

pire State.

The following delegates were elected to the State Convention: The Hon. Arthur S. Tompskins and the Hon. Clarence Lexow of Orangetown, Gen. Ira N. Hedges of Haverstraw, Frederick W. Snow and Isaac W. Edsall of Ramapo A. resolution was adopted requesting the Hon. A. S. Tompkins, Member of Congress from this district, to select his own delegates from this county to the Congress Convention.

Saratoga County Delegates Friendly to Hill. BALLSTON, N. Y., Sept. 1 .- At the Democratic Convention for Saratoga county, held this after-noon, Thomas E. Hickey, M. L. Cary and Everett Partridge were elected delegates to the State convention. These delegates are friendly to David B. Hill. The sentiment of the Saraoga county Democracy is in favor of Coler for lovernor.

Hill Satisfied With the Situation.

ALBANY, Sept. 1.-Ex-Senator David B. Hill s in daily communication with his lieutenants throughout the State and expresses himself as satisfied with the Democratic Gubernatorial nomination situation. William F. Sheehan stopped off on his way through Albany to-day and had a long talk with Mr. Hill. Neither would talk for publication.

JUDGE NEWTON FOR M'KINLEY. Distinguished Democrat of Michigan Forsakes the Cause of Bryan.

DETROIT, Sept. 1.-Judge William Newton of Flint, who was elected Circuit Judge on the nocratic ticket from 1882 to 1894, who refused an appointment to fill a vacancy on the Supreme Court bench offered by Democratic Governor Winans, and who was becaten by only 200 votes when he ran on the Democratic ticket for Supreme Court Judge, threw consternation in the Democratic ranks to day. He came out in an open letter piedging his support to the Republican ticket. He says that President McKinley conducted the Spanish War to a successful issue and "wrote for himself during that time and since the most brilliant chapter in the world's history." He says that in his opinion it makes no difference whether the flag goes ahead of the Constitution, with it or behind it, because Congress is the sole legislative body for the Government of Territories. He says he believes Bryan is right on the silver question, but everlastingly wrong in raising the question of Toperialism. He closes his letter with this paragraph:

"For these reasons and his present attitude on the Chinese question I feel bound by duty to maintain, as far as my individual loyal support may go, the brave man who is at the head of our Government who has brought order out of chaos, and whose brilliant deeds along the line of peace by land and sea in statesmanship will illuminate the grand head. when he ran on the Democratic ticket for Su out of chaos, and whose brilliant deeds along the line of peace by land and sea in statesman-ship will illuminate the grand history of Amer-ican liberty and make his name immortal among those names not born to die. I have never read that any man was born with a saddle on his back and another born with spurs and whip and entitled to ride him. Henceforth I shall support the candidates of the Republi-can party, assuming that they are brave and honest men."

SILVER REPUBLICAN PLANS.

Chairman Tillotson Sees Only Victory Ahead -Rosy Outlook on the Pacific Coast.

CHICAGO, Sept. 1 .- The Silver Republican National Committee will open headquarters at the Auditorium on next Monday. Chairman D. C. Tillotson of Topeka, Kan., arrived here today, and, after a conference with Senator Jones, announced the selection of their head-

quarters.
"It's all nonsense to talk about defections "It's all nonsense to talk about defections among the Silver Republicans," said Chairman Tillotson. "They are standing firm, and will support Bryan loyally. Perhaps in some States like Colorado, which gave such a tremendous majority for silver in 1866, there will be a falling off in the vote, but that is only natural after such an overwhelming victory in the State. We appear to held support were in the State. We expect to hold our own west of the Missouri River. The party is all right in Kansas, Colorado, Idaho and the mountain States, and we have many voters in Illinois

I see the Republican managers are claiming

PAIRBANKS'S SPEAKING TOUR.

The Senator Back From His New England Trip-Election Prospects.

INDIANAPOLIS, Sept. 1 - Senator Fairbanks returned last night from his New England campaigning tour. He said that even way down in Maine every one is complaining of the extreme heat, "I made speeches said the Senator, "at Burlington and Rutland, Vt. at Bangor, Rockland, Winterport and Sebago Lake, Me., Winterport and Sebago Lake, Me., and at Salem, Mass. In Vermont the election for Governor and State officers will be held on Sept. 4, and in Maine on Sept. 10. The probabilities are that the vote in both States will be less than at the last election. Yet it is thought the Democrats will lose more by the reduced vote than will the Republicans. "Indications are that the Republican ratio will be fully maintained. The people are very prosperous, and actively engaged. There is, as is always the case under such circumstances, a degree of apathy. The contented are always apathetic. It is only when people are depressed or seriously disturned that they show the greatest interest in a political campaign. The Sold

est interest in a political campaign. The Gold Democrats are more sharply opposed to Mr. Bryan, if possible, than they were in 1896."

DARK PICTURE OF NOME'S PROSPECTS. Miss Sullivan Writes of Its Fallure and the Terrible Situation of the People.

CHICAGO, Sept. 1.-Letters received in Chicago by P. D. Whitehead, editor of the Alaskan Magazine, from the representative of his publication at Nome City, show that the conditions in the iaraway mining town of the North are most serious. The report is made by Miss J. Sullivan, who, Mr. Whitehead says, is not a newspaper correspondent, but a thorough-

of idle people disputing and arguing over the situation. That no gold is coming into the the city from any of the creeks is proof that the Nome boom is done. There is much sick-

nass. Space on steamers returning to the States is all sold before the boat makes harbor here.

"The golden san is of Nome have been run through sluicebox after sluicebox, and each shovelful registers only dismal failure. Five million feet of lumber, thousan is of tons of the most modern machinery, a thousand horses running losse on the Tundra. 500 wagons never put together, and countless stores of merchandise strew the beach as bitter evidence of failure. From Golovin Bay to Port Clarence, a distance of 200 miles, are strewn tons and tons of machinery, covered with rust and sand, abanden of there by the owners. As much more has not been unpacked, and is offered for less than it cost in the States.

"There is no money in the whole pack. People's faith was so complete that they invested all their money in the machinery which is piled along the beach. But the awful awakening has come. It is frightful. It is appalling. You know the rest. Dawson and Atlin over again with the calamity ten times worse, for here there is not a stick of timber or fuel of any kind. Everything has to be carried in, and when it is here it is like burning gold. I paid \$10 for the first sack of coal, \$5 for the first can of oil and so on.

"As the long dark nights begin to draw over Nome life and property are becoming of less value unless guarded by a rifle. Robbery by the chloroform and 'black lack' methods is becoming more and more frequent, and the military, restricted in its government, is powerless against the riot of crime which is going on."

SECOND BATTERY IN CAMP.

Artillerymen March From Their Armory to Van Cortlandt Park.

The Second Battery N. G. S. N. Y., in command of Capt. David Wilson, marched to Van Cortlandt Park yesterday, where the battery will remain in camp for three days. The bat Park avenue, yesterday afternoon at 2 o'clock, arriving in camp at 5:45 without any mishaps nue to 110th street, to St. Nicholas avenue to Broadway, thence to the Park. The camp this year has been named Camp Reilly in memory of Capt. H. J. Reilly of Light Battery F, Fifth United States Artillery, who was killed at Pekin, Aug. 15. Capt. Reilly was formerly a member of the Second Battery, and was held in high regard by the rank and file.

When the battery arrived in camp yesterday the sightseers began to swarm on the grounds, interfering with the movements of the artillerymen so much that some of the privates had to turn in and do police duty themselves. After the dismount and when things were settled guard mount was gone through followed by the bugle call for supper. There will be a mounted drill at 830 o'clock this morning and also at 230 P. M. The battery will be inspected to-morrow morning by Lieut-Col. N. B. Thurston.

Gen. Wallace F. Randolph, Brigadier-General of United States Volunteers and Colonel of the First United States Artillery, on leave of absence from Newport, was a visitor at the camp. He was formerly commander of Reilly's battery. He complimented Capt. Wilson on the good appearance of the battery, and will probably be present at the inspection. Capt. Wilson said that the battery had made application for an armory in The Bronx, as the present armory is too small. There is no armory in the borough, and leading citizens there are greatly in favor f the project. at Pekin, Aug. 15. Capt. Reilly was formerly

BOAT CLUB SHIRT-WAIST PARTY With Duck Trousers and Noisy Tie Accompani-

There was a shirt-waist party at the clubiouse of the Harlem Boat Club at 127th street and the Hudson River last evening. There was a row in the House Committee of the club about a month ago about the propriety of inabout a month ago about the propriety of in-troducing the shirt-waist party into the club's list of festivities. The shirt-waist programme was adopted by a vote of 6 to 4 and the dance last night was the result. The men were all required to wear, besides their shirt waists, white duck trousers and the loudest neckties possible. The spectacle was described by those who saw it as the most brilliant ever seen in Harlem. About seventy-five couples were on the floor.

DEUTSCHLAND IS A FLYER.

SHE ESTABLISHES NEW RECORDS ON THE TRIP JUST ENDED. Came From Cherbourg in 5 Days 12 Hours

and 29 Minutes, and Made the Best Day's spite Delay Due to Dense Fogs on the Banks. The titanic Deutschland of the Hamburg-American Line created two more records on the trip she finished yesterday from Cherbourg She was abreast of the French port at 9:55 on last Sunday night, and she passed the Sandy Hook lightship at 5:24 yesterday morning Her time was 5 days 12 hours and 29 minutes, over a course of 3.050 knots, at an average hourly speed of 23.02 knots. On the nautical day ending at noon on Friday she reeled off 584 knots, thus beating by four knots the best day's performance of the North Ger-man Lloyd flyer, Kaiser Wilhelm der Grosse. The Deutschland's hourly average on this wonderful day's run Was about 23.90 knots. If she had been able to maintain this rate for the whole voyage she would have made the trip in 5 days and about 7 hours. Her daily runs were 337, 566, 570, 570, 584, and to the Sandy Hook Lightship, 423 knots. She had one day of rough weather and much fog off the Banks, which cost her a few hours. She burned 560 tons of coal a day to accomplish her previous westward performance and beat the best day's run of the Kaiser Wilhelm der Grosse. That is only about ten more tons than the furnaces of the Caarders Lucania and Campania consume, and they are

of the great Hamburg ship. The maiden voyage of the Deutschland was from Plymouth and up to that time was the fastest run across the Atlantic to the westward. Her average speed was 22.42 knots and her time was 5 days 16 hours and 15 minutes.

more than a knot an hour behind the record

On her last trip to the eastward the Deutschland did half a knot better than she did on this voyage. Her time was 5 days, 11 hours and 45 minutes and her average speed was 23.32 knots. She had ideal weather except for a day. With perfect weather conditions she could doubtless carve off 4 knots even from her eastward

perfect weather conditions she could doubtless carve off 4 knots even from her eastward record. The North German Lloyd Line hopes that the biggest and most powerfully engined of the two giants it is building may knock out the Deutschland. The contest for ocean supremacy in speed will probably be confined to two great German lines, as the Cunard, the White Star and the American lines have practically decided against the building of big ships of enormous power on the ground that they are too expensive. Apparently, the German lines think otherwise, as the rivalry promises to continue at least until they shall decide to consolidate for mutual protection and profit.

The engineers of the Deutschland belleve that the ship has "found herself," and that if the seas are smooth on her return trip which is scheduled to begin at 11 o'clock on Tuesday morning, she will clip an hour or so off the eastward record. The Kaiser Wilhelm der Grosse, which approaches nearest the Deutschland in speed and power, will sail on the same day and an hour earlier than the record holder and there doubtless will be a few hours of mighty interesting running when the Hamburg boat begins to overhaul the great Kaiser outside the Hook.

Although she did burn more tha 3,000 tons of coal the run of the Deutschland must have been on a comfortable margin of profit. She carried 701 first and second cabin passengers and 208 folks in the steerage. The first cabin passengers paid high rates and there was not a berth vacant. Among the woyagers was Lady Francis Hope, otherwise May Yohe, the actress, who will open at the Savoy on Sept. 24 in "The Gay Grisette." She is under contract to play twenty-four weeks. She said that her husband had originally intended to sail with her, but that at the last moment he had decided to join her here later. His name was on the passenger list.

CAMPANIA SLOWED DOWN.

Why the American Liner St. Paul Beat the Big Cunarder Into Port.

The officers of the Cunarder Campania told vesterday why the slick American liner St. Paul happened to beat her into port, after havng been in company with her for several hours on Thursday night. The Yankee boat docked late on Friday night, and the Cunarder, which has a record showing that she is nearly a knot has a record showing that she is nearly a knot faster on a voyage, did not land her passengers until yesterday morning. Naturally, there was much elation aboard the St. Paul and corresponding depression on the Campania. Neither ship had in her log any mention of fog on Thursday. But there was fog, and in it, according to the Cunard officers, the Campania slowed down, but the American kept right on at top speed, and thus beat the Briton in.

Among the Campania's passengers was Sir Ernest Satow, British Minister to Japan, who is on his way to his post, from which he has Ernest Satow, British Minister to Japan, who is on his way to his post, from which he has been absent on leave. He said he did not think there was any probability of China being dismembered. He declared that he believed that anything the United States might want to do in regard to the Chinese situation would be agreed to by England. He thought the power of the Chinese Army had been much exaggerated, also the estimates of the Chinese population. He was inclined to think that there were really about 300,000,000 people in Chines. "The whole Chinese Army," he said, "is little more than a mob," He cited the inability of the Chinese to whip a few legationers as an evidence of their lack of military ability and courage, and said he thought that the trouble would soon be over.

NO TIN PLATE STRIKE.

cessions-Democrats Disappointed.

strike of the tin plate workers. They have won an advance on plate work of 8 per cent. and some concessions in working rules. This affects directly 25,000 men. The tin house scale will be adjusted on Friday. The dispute between the Tin Plate Wage Committee of the Amalgamated Association and the Tin Wage Committee of the American Tin Plate Company has been on since April 1. A strike has been predicted. This evening there was held the final conference. Ail day the manufacturers wrestled with the propositions from the workers and finally conceded rates which are above the rates of last year, when \$4.25 a box for I. C. coked plate, with a sliding scale of 2 per cent., was opera-

fail one would be had with independent compames, but such a story was secuted by those on the inside, as the independent companies only number thirty-two as against 235. The Democratic leaders were watching the proceedings of the two committees closely, as tin plate has always been one of the saddest disappointments among the issues raised by them against the Republican tariff policy. The Western members of the Workers' Committee left for their homes this evening highly elated over their victory. panies, but such a story was scouted by those

POLICEMAN SHOOTS INTO A GANG Man He Hit Mortally Wounded.

street complained to the Fifth street police that a gang of toughs were terrorizing the neighborhood. Last night Policeman Jostruth, whose

hood. Last night Policeman Jostruth, whose beat includes that corner, was instructed to disperse the gang. He tried to do so, but the gang jumped on him, knocked him down, kicked him about the face and body as he lay on the pavement and beat him with his own club.

Jostruth, to save his life, pulled his revolver and fired four shots. All of the men ran but one of them stumbled and fell. He was taken to Bellevue Hospital, where he said he was James Kinsella, 23 years old, of 327 East Twenty-seventh street. He had been shot in the left side just below the heart. The surgeons believe that the wound is mortal. Jostruth had several scalp wounds and some cuts in his face dressed. He returned to the station.

Free Fight in a Kentucky Court House.

LONDON, Ky., Sept. 1 .- A general fight ocurred here to day in the court house at the curred here to day in the court house at the conclusion of the trial of Scott Stanley, charged with criminal assault. J. W. Peters stabbed Stanley in the back and the latter will die. Grant Hamilton and Stanley had the first fight in the court room, as the result of an old feud, and Peters. Hamilton's father-in-law, took it up. Half a dozen women were knocked down the steps of the court house and everyman in the building pulled his pistol. The prospect for a shooting bee was fine when the Sheriff swore in a dozen deputies and four of the belligerents were arrested.

Wife's Head Broken With a Dinner Plate. John Sullivan and his wife Annie had a quarrel last evening at their home, 425 East Fiftyninth street, and he threw a dinner plate at her and fractured her skull. She was taken to the Flower Hospital in an ambulance. John ran away and the police are looking for him.

MORE FIGHTING IN CHINA. Heavy Losses on Both Sides in an Engage-

ment at Kangchun. Special Cable Despatch to THE SUN. PARIS. Sept. 1.- A despatch received here states that a Chinese force attacked the allies at Kangchun, and that heavy losses were sus-

tained by both sides. The despatch adds that a panic prevails at Amoy. An average of 10,000 of the inhabitants are leaving the city daily for Hong Kong and other places. Everywhere the machine guns of the Japanese dominate the city.

Eight cruisers are in the harbor. The British cruiser Mohawk is proceeding to Amoy and four German warships are near the port.

WOMAN'S PLEA SAVED A FORGER. Sentence Suspended in the Case of Morton, Church Usher, and He Goes Free. Robert B. Morton, who was the confidential

ward Hill's Son & Co. of 25 Cedar street, pleaded guilty in the General Sessions on Aug. 7 to a charge of falsifying the firm's books to conceal a shortage of \$3,300. A week ago Judge McMahon suspended sentence and Morton walked out of court free. He is 40 years old. It came out yesterday that the elemency shown in Morton's case was due largely to the oint efforts of a young woman and the Rev.

shown in Morton's case was due largely to the joint efforts of a young woman and the Rev. Dr. R. S. MacArthur of Calvary Bantist Church. Morton was an usher in the church. The young woman is Miss Minnie La Vay. Morton boarded with the La Vays. He is engaged to be married to another young woman. After his arrest he confided to Miss La Vay that he had got into trouble by protecting another man from disgrace. Miss La Vay knew Judge McMahon and she went to him and pleaded for Morton. Dr. MacArthur and influential persons in his church also interceded for the prisoner. They urged that his life had been blameless except for this lapse; he had confessed the wrong and had done his utmost to make restitution and it was promised that he would repay all of the stolen money.

Morton remained in the Tombs for more than two weeks before he was released. Judge McMahon said yesterday that he considered Morton's a very proper case for the exercise of the discretion vested in Judges by the Legislature. The best of people vouched to him for Morton and assured him that the prisoner's whole life would be devoted to making restitution, and it was proved that he had already turned over his life insurance policy to the complainant. The suspension of sentence, Judge McMahon pointed out, enabled him to send Morton to jail at any time hereafter if he did not lead a strictly honest hife.

TEST OF THE HOLLAND. Conflicting Opinions by Naval Men as to the

Thoroughness of Friday's Trial. NEWPORT, R. I., Sept. 1 .- The officers at the torpedo station do not think that last night's test with the submarine torpedo boat Holland was fair. They say that the searchlights used in last night's experiment were inferior and that if an attack had been arranged on a battleship that the lights on the latter would have had no difficulty in picking the boat up. They also say that it is not fair to consider what the Holland does on the surface, as she is a submarine boat. It has always been supposed that the big 24-inch light at the torpedo station was one of the best lights in the naval service, and some officers contend that if that light could not pick up the Holland none of the battleships could do so. Other

none of the battleships could do so. Other officers think that the fact that the boat ran on the surface without being detected is a great benefit, for if that can be done it will not be necessary for her to be submerged.

In last night's test the officer in charge, Lieutenant-Commander Hodgson, says that he did not pick up the Holland after her running lights were put out, and if he could have found her the Leyden would not have remained in the outer harbor a half hour after the Holland was docked. It would also have relieved him of much anxiety as to the safety of the boat from being run down by a ferryboat and a tow-boat.

Lieut. Caldwell, who was in charge of the Holland, is satisfied with the test, but admitted that he thought that he had been picked up, for he was nearly all the time in the beam of light. It may not have been a fair test, from the view that the lights used were not the most powerful, but, nevertheless, the Holland was not picked up last night.

MINNEAPOLIS, Sept. 1.—The great flour mills of Minneapolis whose year ended last night, of Muneapous whose year ended last hight, have eclipsed all the previous performances in the history of the industry that has made the city famous. There is no doubt that 14,500,000 barrels of flour have been manufactured. It is entirely probable that the amount will be higher than that. The mills required between 62,000,000 and 65,000,000 bushels of wheat during the past year.

FOR PROLONGING GOEBEL'S LIFE. Check for \$10,000 to Be Sent to Dr. McCormack-Enabled Goebel to Die Governor.

LOUISVILLE, Sept. 1.-Arthur Goebel, brother of the dead Governor and his devisee under the will, has placed a claim against the estate of Gov. Goebel for \$10,000 for Dr. McCormack's services. Senator Goebel's great ambition was to be Governor of Kentucky. He had that office constantly in his mind, and when he finally obtained the nomination he entered upon the memorable canvass which resulted in his assassination. He and Dr. McCormack had long been close friends and when Goebel was shot Dr.McCormack, who happened to be in Frankfort at the time, was one of the first physicians to come to his assistance. The wound was mortal, but realizing Goebel's ambition and knowing that if lif could be prolonged a few days the Legislature would decide the contest, and that in the state of feeling esulting from the assassination, Goebel would clerk of the chemical importing firm of Edprobably be declared Governor, Dr. McCornack took every step known to science to stem

probably be declared Governor. Dr. McCormack took every step known to science to stem the ebbing tide. Salt solution, to replenish the blood lost by hemorrhage, was injected promptly, and Dr. McCormack and the other physicians present worked incessantly to insure a prolongation of the patient's life, although they realized that the wounded man must die as the result of the shot.

When Arthur Goebel arrived he requested Dr. McCormack to remain in Frankfort with his brother and not return to his practice in Bowling Green. The doctor willingly consented to do so, and until Goebel died worked with him night and day. The surgeons who were summoned to Frankfort from Louisville and Cincinnati were surprised that the wounded man had survived an hour after he was shot, and expressed the opinion that but for the prompt injection of the salt solution and other measures taken in the fight with death Goebel would have expired in a short time after the ball entered his body.

After the death of Goebel Arthur Geobel and Justus Goebel, the surviving brothers, expressed their appreciation to Dr. McCormack of his services and said that they were convinced that but for his prompt and efficient measures and precautions to prolong their brother's life he would never have lived to attain his ambition and be sworn in as Governor. They requested Dr. McCormack to send In a bill against the estate for his services. This the doctor declined to do on the ground that Gov Goebel during his life had done him many kindnesses and he felt it was a privilege to

The doctor declined to do on the ground that Gov Goebel during his life had done him many kindnesses and he felt it was a privilege to devote his services to him. As a mark of appreciation Arthur Goebel has placed the \$10,000 claim against the Goebel estate in favor of Dr. McCormack, and it is understood that the check for that amount will soon be sent him, as the settlement of the estate has been entered upon within the last for days. tered upon within the last few days.

MRS. BOTHAM MARRIES IN CHICAGO. The Proprietor of the Owl Lunch Wagons in Schenectady Takes Another Husband.

mored here to-day that Mrs. Eva M. Botham of this city was married in Chicago last evening to G. N. Rogers. The rumor was verified this evening by Mr. Henry A. Mower, a brother of

Mrs. Botham. Mrs. Eva Minerva Botham, or Mrs. G. N.

Mrs. Eva Minerva Botham, or Mrs. G. N. Rogers, is the proprietor of three Owl lunch wagons stationed in the principal streets of Schenectady and all doing a profitable business. She is a divorced woman, 38 years of age, and has one child, a son, aged 14. The Bothams moved to Schenectady seven years ago from Lynn, Mass., and established the Owl lunch wagons here. They proved immensely popular and profitable. Mrs. Botham's husband, Clarence E. Botham, fed from Schenectady on Jan. 9, 1896, taking with him every dollar the Bothams had in the bank—a little more than \$10,000—and another woman. They are said to be in New Mexico.

After her husband's flight Mrs. Botham continued the business which has greatly increased and is at present paying large profits. On May 30, 1893, Mrs. Botham applied to the divorce was granted on July 12, 1899. Mr. Mower, Mrs. Botham's brother, who is at present, in temporary charge of the lunch business here said this evening:

Tam thoroughly disgusted with my sister for marrying this man Rozers. Do I know him? Well, I should say I do. He worked here for Ed. Kerste in the bicycle shop. My sister became infatuated with him and she declared a long time ago that she intended to marry him, notwithstanding the fact that his habits are bad. He is dissipated. I see he claims to come from New York. His home is in Bangor. Me, and I believe he has a wife and family there, at least it has so been reported. Rogers went away from here some time ago, my sister furnishing him with funds. She received letters from him from several places, and finally, one week ago to-day, she drew a big sum from the bank, and Joined him at Toledo, Ohio. They went on to Chicago and apparently were there married. Last evening I received a telegram from sister saying Expect us home soon. That is all I know of the affair, and, as I said before, I am clean disgusted."

Mrs. Botham, or Rogers, is a bicyclist of local repute, having established a record for century runs. She has mailed several photographs of Rogers and herself, s

SHOT FRIEND BY ACCIDENT.

Goldstein Got a Bullet in the Head and Can's Recover. Morris Rosenblat, 20 years old, of 323 Stanton street and Max Goldstein. 22 years old, of 227 Rivington street went to Vanser's Park at Fresh Pond road and Cypress avenue, Brook-lyn, yesterday afternoon. Last night they were skylarking in a shooting gallery there and Rosenblat accidentally shot Goldstein in the head. Goldstein was taken to St. Mary's Hospital unconscious. The surgeon there said that he had a bullet in the brain and could not recover. Rosenblat was locked up in the Liberty avenue station. recover. Rosenblat wa Liberty avenue station.

HARTFORD, Conn., Sept. 1. The Phelps coachnassed through bere to-day on its return trip to New Jersey. The party consists of Capt. and Mrs. John Jay Phelps, the Misses Dorothy and Rose Phelps, Miss Emily Rowe, and Mr. and Mrs George A. Brinkerhoff of Hackensack, N. J.: Kier Mitchell of Pittsburg and two grooms. They were Johned here by William M. Johnson of Hackensack, the new Assistant Postmaster-General.
